

## Dates for your

**Monday 8<sup>th</sup> – 12<sup>th</sup> May**

- SATs Week

**Wed 17<sup>th</sup> & Mon 22<sup>nd</sup> May**

- Year 5 - Botanic Gardens

**Friday 19<sup>th</sup> May**

- Year 6 - Drayton Manor Park

## Y6 SATs Tests

Just a quick reminder to all Y6 parents that the children will be sitting their end of Key Stage 2 Tests week beginning the 8<sup>th</sup> May. These tests are incredibly important to the future success of the children and therefore they need to prepare for them properly.

Please make sure that your child attends school on time on the morning of the tests and has had a good night's sleep. Y6 staff will send out a letter early next week to give further advice on how to prepare for the tests.

# YEAR 6 SATS

## National Science Week – Year 5

On Monday 13<sup>th</sup> March, some staff and children from Year 5 attended a Science Presentation at Moat Community College. To launch National Science Week, the children were invited to participate in a wide range of activities and games to spark their interest in Science. Children learned about lots of scientific themes including: reversible and irreversible changes, friction and air pressure – in a fun way that involved the chance of either them or one of the teachers getting wet! During the presentation, the children were given lots of ideas that they could practise at home and maybe try some out on their families.

## Y6 Trip to the Warning Zone

All of the year 6 children recently spent a day at the incredible Warning Zone in Leicester. The Warning Zone is a life skills centre that educates children about how to avoid dangerous situations and therefore stay safe. This is an incredible resource that recreates dangerous scenarios that children could face within their community or in life generally. They are exposed to fire risks, electrical risks, railways and e-safety to name but a few. They had a fantastic time and learnt an awful lot about a range of safety issues. They have been using the trip as an inspiration to develop opportunities for writing and have produced some excellent pieces of work to showcase their knowledge and understanding.

## New Ball Court

We will soon be having a closed area installed on the playground for the purpose of allowing children to play ball games in a safer environment. This will make lunchtimes a much safer and ball friendly place for the children. The ball court should be installed before half term.

## Anti-Bullying Community Award

We will soon be undergoing our final assessment in order to gain the Anti-Bullying Community Award. Attaining this award means that the school is recognised for its efforts to minimise the risk of bullying in school. We have lots of systems in place to reduce the risk of bullying and are confident that the school will be successful in gaining the accreditation.

## Sports Clubs

This term we are increasing our sports clubs thanks to the help of other staff who have volunteered their time to run extra clubs.

### **Morning Clubs 8.00am – 8.25am**

Tuesday	Boys Cricket ( Mrs Wood)
Wednesday	Go noodle/Just Dance (Mrs Wood)
